

In Your World

Cloud Control

Treat it like a zero sum
Burn your bridges one by one
Bide your time

Treaded on my fingertips
Know your limits opposite
Time to shine

In your world
I'm coming to prepare
In your world
I'm coming up for air

Car on the road
To the south
Yeah I know
Car on the road
To the south
Yeah I know

You were taller when we met
I haven't seen your garden yet
Can you grow

Phone is ringing all the time
But you're not saying anything
Do you know

In your world
I'm coming to prepare
In your world
I'm coming up for air

Car on the road
To the south
Yeah I know
Car on the road
To the south
Yeah I know

In your world
I'm coming to prepare
In your world
I'm coming up for air

Car on the road
To the south
Yeah I know
Car on the road
To the south
Yeah I know

Car on the road
To the south
Yeah I know
