Rainbow City

Cloud Control

I walk around to go away
I get around, I get lost
Lost in cemetery, lost in gravity
Lost in fantasy, lost in rainbow city

I walk for hours to go away
I get knocked 'round, I get lost
Lost in seven seas, lost in BMG
Lost in highway city, lost in front of me

Who's lost now, who's lost?
How would I know?
She's gone in the early dawn
How would I know she's gone?
How would I carry on?

I'm lonely for life, I'm crying inside
A statue in time, I'm crying, yeah
Emotion, so hard to find it, I tried
To stay cool inside
I'm failing, yeah
I'm lonely, I'm crying
A statue, I'm crying

How would I know?
He's gone in the early dawn
How would I know he's gone?
How would I carry on?

I walk around to go away
I get around, I get lost, lost, lost, lost
Lost, lost, lost, lost, lost

How would I know he's gone?
How would I carry on?
How would I know he's gone?
How would I carry on?
How would I know he's gone?
How would I carry on?
How would I know he's gone?
How would I carry on?
