

# The Rolling Stones

## Cloud Control

Oh I woke up with the sun  
This morning  
Woke up with the sun  
Opened my window, oh

The sinner, the saint  
It's all coming round again  
Thrown like a stone  
To the bottom of the river

It's no different baby now  
Woo, it's no different baby now

Oh I sat down in the shade  
In the afternoon  
Floating on the moon  
Like a boat on the blue, oh

The ferry, the clue  
It's all coming round so soon  
Living like a lover  
Is easy my brother

But it's no different baby now  
Woo, but it's no different baby now  
Ooh
