

The Rolling Stones

Cloud Control

Oh I woke up with the sun
This morning
Woke up with the sun
Opened my window, oh

The sinner, the saint
It's all coming round again
Thrown like a stone
To the bottom of the river

It's no different baby now
Woo, it's no different baby now

Oh I sat down in the shade
In the afternoon
Floating on the moon
Like a boat on the blue, oh

The ferry, the clue
It's all coming round so soon
Living like a lover
Is easy my brother

But it's no different baby now
Woo, but it's no different baby now
Ooh
