

Treetops

Cloud Control

In my car
All those tears
In the forest
From the fears
Treetops rocket
Beat up lock it
Don't stop it
Beast on a rocket

No more change
No more chains
No more time
Everybody
Please stop
Not stopping
All my life

Slow love

Hit me in the treetops
Sorry for the tear drops
Miss you when you're gone
All this atmospheric pressure
Holding us together
Tell me I'm not wrong

You cover everything like the atmosphere around me
Slow love
Slow love
You cover everything like the atmosphere around me
Slow love

You cover everything
The atmosphere around me
You cover everything

Got a feeling when you hold me
And it's just like you know me
We stop and you go
When my heart's running cold
Yeah over and over
Give me everything that I need
Like the atmosphere around me
And it's just like you know me

Slow love
Slow love
Slow love

Hit me in the treetops
Sorry for the tear drops
Miss you when you're gone
All this atmospheric pressure
Holding us together
Tell me I'm not wrong
All this atmospheric pressure
Holding us together

Tell me I'm not wrong

You cover everything like the atmosphere around me

Slow love

Slow love

You cover everything like the atmosphere around me

Slow love
