

Zone (This Is How It Feels)

Cloud Control

I hate it when you walk away
All the things that I couldn't say
When I look back on yesterday
Can't see 'cause it starts to rain
And I'm waiting to be on the throne
But it feels like I'm coming home
I tell everybody on my phone

This is how it feels in the zone
This is how it feels in the zone
This is how it feels in the zone
I tell everybody on my phone
This is how it feels in the zone

I hate it when you feel this pain
When you say you wanna walk away
But it don't have to be that way
I never wanna walk away
And I'm waiting for you on the throne
But I know you wanna walk alone
I just wanna let you know
It's good when you're in my zone

This is how it feels in the zone
This is how it feels in the zone
I'm letting my feelings show
This is how it feels in the zone

I remember when we walked away
Nothing like a shadow of a Charlotte day
I've been thinking about the lavender ray
This is where I wanna stay
'Cause I've waited to be on the throne
But it feels like I'm coming home
It's the moment that you let it go

This is how it feels in the zone
(This is how it feels in the zone
This is how it feels in the zone, zone
My zone! Woo!)

So the zone is this special place
In a special time
Just for you
The zone is you
You are the zone
Let's all be in the zone together
Tomorrow
Today
Forever

This is how it feels in the zone
This is how it feels in the zone
I'm letting my feeling show
This is how it feels in the zone
I'll tell everybody on my phone
'Cause it feels like I'm coming home

I just wanna let you know
It's good when you're in my zone
This is how it feels in the zone
This is how it feels in the zone
This is how it feels in the zone
