Am I Something

Cloud Nothings

Every night around this time
I take a step and run the wire
Your scene's fading
I break space around my time
An old picture going wild
It seems vacant

And I misremembered a name
A new habit to beta shame
The view changes
And if we go to some time
Where my future's looking blind
Where I let it in

Am I something? Do you see me?
Does anybody living out there really need me?
Am I something? Do you see me?
Does anybody living out there really need me?

So every second of my life
That I wasted here tonight
Was it worth it?
Did I use up all my time
In the shadow for the night?
Did I earn it?

Well, it's hard for me to say
If I would do it all again
For what purpose?
If I could write the whole thing off
I'd give the rest of my life up
Are you nervous?

Am I something? Do you see me?
Does anybody living out there really need me?
Am I something? Do you see me?
Does anybody living out there really need me?

Am I something good? Am I something good?
Am I something good? Or just a [?]?
Am I something good? Am I something good?
Am I something good? Or just a [?]?

Am I something good? Am I something good?
Am I something good? Or just a [?]?
Am I something good? Am I something good?
Am I something good? Or just a [?]?
