

On Different Earth

Cloud Nothings

I don't like anything you do
I couldn't leave if I wanted to
I make time to be mad at you
'Cause what have I really got to lose?
It's not fair to be hiding here
But there's comfort in having fear
'Cause there's nothing we'd rather hear
Decide who you wanna be

No, we're never going back to how we were
Gonna live my time on different earth
No, we're never going back to how we were
Gonna live my time on different earth

I don't like anything you do
I couldn't leave if I wanted to
I make time to be mad at you
'Cause what have I really got to lose?
It's not fair to be hiding here
But there's comfort in having fear
'Cause there's nothing we'd rather hear
Decide who you wanna be

No, we're never going back to how we were
Gonna live my time on different earth
No, we're never going back to how we were
Gonna live my time on different earth

And I'm always gonna come around
Always gonna come around
Always gonna come around
Always gonna come around

We're never going back to how we were
Gonna live my time on different earth
No, we're never going back to how we were
Gonna live my time on different earth

And I'm always gonna come around
Always gonna come around
Always gonna come around
Always gonna come around
