

## Only Light

Cloud Nothings

I never wanted more  
And I would live alright  
I never wanted more something more than what I could be in this  
life  
If you were never born  
If you were only light  
If you were nothing more than someone I could hope for me is ri  
ght

Then I would change the world  
I would change the world

'Cause I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight  
Oh, I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight

I never wanted more  
And I would live alright  
I never wanted more something more than what I could be in this  
life  
If you were never born  
If you were only light  
If you were nothing more than someone I could hope for me is ri  
ght

Then I would change the world  
I would change the world

'Cause I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight  
Oh, I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight  
Oh, I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight  
Oh, I'm ready for you now  
Been waiting all my life  
Oh, I can hardly wait to be the one you need tonight
