

Right On The Edge

Cloud Nothings

I don't believe
It's a lot to give up
Insanity
Coming out on the low
Come on with me
If you wanna go I'm waiting
Let's split the scene
Wait it out on our own

Like ordinary people
Living out their lives
Ordinary people
Running out their time

And I'm right on the edge
Of the world and I'm walking out

I've loved and I have left
What I've wanted to protect
