

Saw This Light

Cloud Nothings

Call it out
The hope is waiting on you now
Speak it out
And tell me life is where you want it
Just the way you had it
So permanent
It may be perfectly at home
Call me out
And tell me life is where you want it
Just the way you had it
An item that established
The order of the world

Well, would you believe that I had fallen?
Well, would they believe you if you saw it?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?

Take away
The way you were today is gone
Permeate and tell me life is where you want it
Just the way you had it
Don't complicate
Be unaware the lie is long
Communicate and tell me
Life is where you want it
Just the way you had it
An item that established the order of the world

Well, would you believe that I had fallen?
Well, would they believe you if you saw it?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?

Why is the question here
Why is the question here

You know you saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?
Saw this light upon me
Ooh, does it make you nervous?
No
