

# Sight Unseen

Cloud Nothings

Before we were talking  
Before anyone knew  
How the working components  
Revolved in the room

Carried how long within me  
That was all that she said  
Carried how long within me  
This idea of zen

And look  
I'm moving out of view  
The world won't follow you  
So I get by and enter slowly

Go  
Another minute alone with  
Another minute alone with  
Another minute alone with  
The world of sight unseen

In the hours surrounding  
All the fire of the sea  
The following years in account of all that I have seen

There were code notes of envy  
Over the sounding of siren  
And it gave me the feeling that I had lost all I could love

And look  
I'm moving out of view  
The world won't follow you  
So I get by and enter slowly

Go  
Another minute alone with  
Another minute alone with  
Another minute alone with  
The world of sight unseen

The world  
The world of sight unseen  
The world  
The world of sight unseen  
The world  
The world of sight unseen  
The world  
The world of sight unseen

Of sight unseen  
Of sight unseen

The world  
The world  
The world of sight unseen

The world

The world  
The world of sight unseen

Finally gone but I'll remember all that I have seen  
Finally gone but I'll remember all that I have seen  
Finally gone but I'll remember all that I have seen  
Finally gone but I'll remember all that I have seen

Telling you "no" you won't forget the days of coming clean  
Telling you "no" you won't forget the days of coming clean

Finally gone but I'll remember all that I have seen  
Finally gone but I'll remember all that I have seen

In the world  
The world of sight unseen  
The world  
The world of sight unseen  
The world  
The world of sight unseen  
The world  
The world of sight unseen
