

# The Horror You Found

Cloud Nothings

Am I divided  
Or is it right  
To keep relying you'll get over it tonight?  
Are you familiar  
With what I'm like?  
How can you ever think that we could be alright?  
No, this is not  
Anything, anything, anything, anything good  
This is not  
Anything, anything, anything, anything good

I know you, I know you won't go no further  
I know you, I know you won't last too long  
I know you, I know you won't go no further  
I know you, I know you won't last too long

Oh, I am the horror that you find in me  
Oh, I am forgetting who we were  
Oh, I am the horror that you find in me  
Oh, I am forgetting who we were

I'm not divided  
I know my mind  
I have an ugly thought that happens all the time  
Can't find an hour  
Don't know the why  
There isn't any way that I can feel fine

I know you, I know you won't go no further  
I know you, I know you won't last too long  
I know you, I know you won't go no further  
I know you, I know you won't last too long

Oh, I am the horror that you find in me  
Oh, I am forgetting who we were  
Oh, I am the horror that you find in me  
Oh, I am forgetting who we were
