

# Violent Reality

Cloud Nothings

How long can we  
Wait for anybody  
To believe in our new violent reality?  
Nothing coming  
I start running  
From a life that's happening to someone outside of me

Who can really say when this will end?  
Who can really say how we can live?  
When time is getting longer  
The day never ends  
Time is getting longer  
That's just how it is

When your home is hell now  
Your home is hell now  
Your home is hell now  
Your home is hell now

How long do we  
Look for nothing?  
Can you see my life as I put all that in front of me?  
And if, if I  
Fall on hard times  
Take this flame and watch a candle burn in my memory

Who can really say when this will end?  
Who can really say how we can live?  
When time is getting longer  
The day never ends  
Time is getting longer  
That's just how it is

Your home is hell now  
Your home is hell now  
Your home is hell now  
Your home is hell now

Time  
Time  
Time  
Time  
Time  
Time  
Time  
Time
