Wasted Days

Cloud Nothings

```
Oh I know
My life's not gonna change
And I live
Through all these wasted days
Never thought
That I'd end up this way
And I know
It's gonna stay the same

I thought I would be more than this
I thought I would be more than this
I thought I would be more than this
I thought I would be more than this

And I know
I'm losing all my time
Doesn't seem
Like it was ever mine
Didn't seem
My own I don't know why
Getting tired
Of living 'till I die

I thought I would be more than this
I thought I would be more than this
I thought I would be more than this
I thought I would be more than this

I thought I would be more than this
I thought I would be more than this
I thought I would be more than this
I thought I would be more than this

I thought I would be more than this
I thought I would be more than this
I thought I would be more than this
I thought I would be more than this
```
