

Voice of Reason

Cloudscape

Common sense, different angles
Point of views based on childhood
What is normal depends on backgrounds
Question is what sets the directions

Strange ways
Opinions differ
Some are fighting hard while others do not care
Settles for less

Lies are told, crossing fingers
Never ending tears are falling
No respect for each other
Some human minds are disastrous

Strange ways
Opinions differ
Some are fighting hard while others do not care
Settles for less

Cries out
The heat of the moment
Reaches out to make your own voice heard
Watch out
To fall into misery and misunderstanding

Your world
Based on how you see it
Alright
But, so wrong to others
Your way, your visions
Voice of reason speaks your mind

Our roots defines us all
So many ways to see our world
Deep in your mind you'll find your way
It's hard to change the way you are

Strange ways
Opinions differ
Some are fighting hard while others do not care
Settles for less

Cries out
The heat of the moment
Reaches out to make your own voice heard
Watch out
To fall into misery and misunderstanding

Your world
Based on how you see it
Alright
But, so wrong to others
Your way, your visions
Voice of reason speaks your mind

Cries out

The heat of the moment
Reaches out to make your own voice heard
Watch out
To fall into misery and misunderstanding

Your world
