

## With a Woman Like You

Clouseau

Now living ain't easy  
It's a difficult ride  
Sometimes I feel like a man  
Who's all washed up inside  
But then when that feeling  
Is bringing me down  
I know that I will recover  
I'll pick myself off the ground  
With a woman like you  
Sometimes I've regretted  
The things that I've done  
But I have discovered love's meaning  
And the beauty and joy I have won  
With a woman like you  
With a woman like you I could take it  
With a woman like you I could make it  
With a woman like you I could go anywhere  
And do anything I wanna do  
With a woman like you
