

## Portable Radio

Clout

Now take your pick of the modulation  
Like a kid in a candy store  
It's a hand-carry situation  
Made for lying on the beach or dancin' in the streets

You got your pertinent information  
Or you can tune in to hear the score  
There's a power in a million stations you can't ignore

Come on and listen to the radio  
Turn up the power, power radio  
Rock it for hours and hours and hours, radio  
Now turn it soft and low  
Portable radio, portable radio, turn up the power  
Portable radio, turn up the power all night

Well, I don't wanna hear no static  
And I don't wanna hear no jaw  
Now get them platters on automatic  
I cannot get enough you got to give me more and more  
Play some soul for the congregation  
Rock 'n' roll for the kids next door  
Charge up your batteries across the nation  
Viva la portable radio!

Come on and listen to the radio  
Turn up the power, power radio  
Rock it for hours and hours and hours, radio  
Now turn it soft and low  
Portable radio, portable radio, turn up the power  
Portable radio, turn up the power all night
