

Come & Adore

Cloverton

Come
All you faithful and triumphant
With joy inside your lungs
Won't you come?

Behold
For the King of kings is born
In a manger to a throne
Will behold

But busy feet will quick lay down the streets of trampled snow
As Christmas lights all flicker like an empty glass of hope
Distractions wrapped in red and green, forgot what it was for
Come and adore, come and adore, come and adore

Sing
With a choir of angels, sing
Join with Heaven
Sing heavenly as we sing

And shout
"Hallelujah" from each mouth
Crying, "Glory in the highest"
Love came down

But lonely are the silent nights, I can't speak a word
The memories come back to me, I wish that you could
Will peace on Earth, good will to men repair my broken world
Come and adore, come and adore, come and adore

So, fix our eyes upon the place where light broke through the dark
Return the world back to us and guide us with a star
The baby born in Bethlehem, a savior to us all
Come and adore, come and adore, come and adore

Come and adore, come and adore, come and adore
Come and adore, come and adore, come and adore
