

Better

CLOVES

Honestly
What you got
Is what you want
Not what you need

I don't no
If you can tell
All it does
Is give me hell

I...
I know
You know
I know you're with her
I...
I know
You know
I know you better better

Everyday
I think about
The bitter truth
And drown you out

I can't believe
I'm here again...

I...
I know
You know
I know you're with her
I...
I know
You know
I know you better better better better
Better better better better

I...
I know
You know
I know you're with her
I...
I know
You know
I know you better better better better
Better better better
I know
You know
I know you better
