

## Dreams

CLOVES

Don't waste your soul  
Forget about me  
Had every caution there  
Sweet dreams  
Go risk it all  
When you could of had me  
Had every little caution there  
Sweet dreams

Think I'm falling  
I'm uninspired  
Kinda like the darkness sinking in  
Got me flowers  
But they only live to die  
Picking them apart  
Before it begins

Keep it all to myself, to myself  
No one else (yeah)

Don't waste your soul  
Forget about me  
Had every caution there  
Sweet dreams  
Go risk it all  
When you could of had me  
Had every little caution there  
Sweet dreams

Hate me all you want  
Just don't pick it apart  
Just know me like you do  
And leave me to the dark  
Hate me all I want  
Just don't pick it apart  
Just Know me like you do  
And never let it stop
