

## Good Try

CLOVES

Give it a good try  
Then watch it pass you by  
You're waiting for the call  
That never comes at all  
So don't get too sad  
About things you never had  
I'm slowly waking up  
That dream that never was

Now I'm so far away from wrong  
I just can't put my finger on  
Tell me what am I running from?  
(It's taking me too long)

Hope all drained by the past  
A good thing never lasts  
Still waiting for your call  
(So) Just go on give it up

Now I'm so far away from wrong  
I just can't put my finger on  
Tell me what am I running from?  
(It's taking me too long)

You gave it a good try baby...

Now I'm so far away from wrong  
I just can't put my finger on  
Tell me what am I running from?
