

Sicko

CLOVES

My nerves catch fire and scream too loud
Can't hear what you're sayin', yeah
I'm happy when I don't go out
So leave me hangin'

In the corner on the outside
Lookin' in I see a sicko
Starin' at me on the wrong side
Won't be the last time
In the corner on the outside
Lookin' in I see a sicko
Starin' at me on the wrong side
Won't be the last time

I clench my teeth to play it safe
But inside I'm dyin', yeah
Too many times is what it takes
To keep it silent

In the corner on the outside
Lookin' in I see a sicko
Starin' at me on the wrong side
Won't be the last time
In the corner on the outside
Lookin' in I see a sicko
Starin' at me on the wrong side
Won't be the last time

Yeah, yeah, yeah
Yeah, yeah, yeah

And every now and then, I get a little bit crazy
Get fucked up, talk shit out loud
Every now and then, I get a little bit crazy
Won't be the last time, yeah

Every now and then, I get a little bit crazy
Little bit crazy, crazy...

In the corner on the outside
Lookin' in I see a sicko
Starin' at me on the wrong side
Won't be the last time
In the corner on the outside
Lookin' in I see a sicko
You starin' at me on the wrong side
Won't be the last time, yeah
