

## Up And Down

CLOVES

So how's today gonna feel?  
Need to open my eyes to know what's real  
Now wake up me, come through heavy haze  
And I wish I could unsay words I said

I'm up and down  
And all of me has turned inside out  
I'm up and down

Now I've wasted the day  
Made no plans by to slowly waste away  
And over and over, it never ends  
And I guess I'll just get back into bed

And I'm up and down  
All of me has turned inside out  
And I'm up and down

I'm on [?]  
(Half asleep 'cause I'm too early)  
That I'll never  
(Had to laugh and it's not funny)  
(Fall so deep)  
And I'm already down  
And I might not come around

I'm up and down  
And all of me has turned inside out  
I'm up and down  
And down

I'm up and down  
Turn inside out  
I'm up and down  
I'm up and down  
Turn inside out  
I'm up and down

I'm saying our last goodbyes  
And I'm not coming down  
I'm saying our last goodbyes  
And I'm not coming down

I might not come around  
I might not come around  
I might not come around  
I might not come around
