

The Friend I Once Had

Club 8

i want to know
who will take care of me now
i wonder how
i'll find someone i love
sometimes i
feel so young
i've never known the truth

chorus
will i ever find myself again?
will i ever reach my only friend?

i hope, i will see you again
i want to find
the friend i once had

a thousand miles from your smile
i'm thinking of you
i've never felt
so lonely with myself
you don't hear
you don't know
when i cry for you baby

chorus
will i ever find myself again?
will i ever reach my only friend?

i hope, i will see you again
i want to find
the friend i once had

you're trying to forget me
but i just want
to see you again
the friend i once had
