

## 10,000 Witnesses

Clutch

After defying the grip of the hangman's noose  
And recovering my cognizance  
Spun the compass north by northwest  
And took liberty out for a long slow dance

Took a good look around, what did I see?  
A big red tent and people coming in like the tide of the sea  
I ducked in to catch the shade  
Preacher jump up all ablaze

They say, "This year rock is coming back, Jack  
White gnashing teeth like wolves in the pack  
Carnivorous, no mercy, hon  
There's plenty here for everyone, so come, get you some"

10,000 witnesses, show 'em how it's done, son  
Fist full of cottonmouth, rock that podium  
Walk on the ashes, no half stepping, kid  
Their fans are flashing in expectation  
All right now, all right now, all right now, all right

They say, "This year rock is coming back, Jack  
White gnashing teeth like wolves in the pack  
Carnivorous, no mercy, son  
There's plenty here for everyone, so come, get you some"

While living on the lamb and all cut loose  
Number of the saints march on in  
Gonna find my executioners  
And show them exactly what it means to live

10,000 witnesses, show 'em how it's done, son  
Fist full of cottonmouth, rock that podium  
Walk on the ashes, no half stepping, kid  
Their fans are flashing in expectation  
All right now, all right now, all right now, all right

White gnashing teeth like wolves in the pack
