

Evil

Clutch

You're a long way from home
Can't sleep at night
Grab your telephone
Something ain't right

Well that's evil
Evil is going on
And I'm just warning you brother
You better watch your happy home

Long way from home
Can't sleep at all
Feels like a mule's kicking
In your skull

Well that's evil
Evil is going on
And I'm just warning you sister
You better watch your happy home
Watch it! Watch it!

Long way from home
Can't sleep at all
Feels like another mule's kicking
In your skull

Well that's evil
Evil is going on
And I'm just warning you people
You better watch your happy home
Watch your happy, watch your happy happy home

Evil you better watch your happy home
I'm just warning you people
You better watch your happy home
