

# Ghoul Wrangler

Clutch

I hear a ruckus in the back tall shadows on the wall  
Mabel, won't you wake up we got lawyers in the barn  
Yes we do  
All the rumors they're all true  
Don't worry baby I know what to do

Many years ago there was a case of legalese  
Thankfully my grandad handed down those ancient ways  
Yes he did  
Folk magic the real deal  
Folk magic hot off the grill!

Woo!  
Ghoul wrangler  
Shut 'em down  
Ghoul wrangler  
Shut 'em down  
Licensed and bonded  
I should give a business card  
Certified

I sneak up to the coop and see them chewing on the bones  
Spitting backwards Latin at mobile phones  
Yes they were  
Frothing at the mouth like rabid beasts  
Diabolical to say the least

At the sight of me they bare their flashing yellow claws  
Bits of old poor Chester white falling from their maws  
Yes they were  
Hackles rose air grew chill  
Folk magic hot off the grill!

Woo!  
Ghoul wrangler  
Shut 'em down

Thirteen bloody litigators feasting on the hog  
My god, Mabel, we got lawyers in the barn

Twelve of them dispatched and now there's one more left to go  
I track his penny loafers through the freshly fallen snow  
Yes I did  
I find him in the old stockyard  
We got different laws down on the farm

Woo!  
Ghoul wrangler  
Shut 'em down
