

## 80 West

Clyde Carson

80 West flyin' through the lanes laughing  
Trippin' off life tryna make it happen  
Finna travel [?] to the five stars  
Downtown they go on the side bar

Dangerous, feelin' [?]  
Like it's time to come outside, take back over shit  
Show no mercy, I deserve it on some spoiled shit  
It's still grapplin' the fridge for them long nights  
It's still so much to be done, and it's the right time  
You don't want it bad enough, you gone fuck up my grind  
Everyday with me a holiday, a whole vibe  
Time of your life, like the whole time
