

## A New Year

**Clyde Carson**

Back on program  
Thank God for the trap, still gotta legitimize  
Berry Gordy, Smoky Rob buildin' an enterprise  
All over the streets, but I never miss dinnertime  
What a difference one year make, when the business is right  
Shit, we ballin' numbers, but we gotta start somewhere  
Lost three cousins, two months, life unfair  
Count blessings, still gotta move ahead  
Pain is a motherfucker buried in [?]  
Hold your head, cousins Rob, Lil' Billy and Shine  
Rollin' up reminiscence, unforgettable times  
When it's all set and done, what are you gonna leave behind?  
Nigga make the family proudy  
Live life, share game, getting everything outta me  
I got angles on the side of me  
Ride alongside all of the niggas that are ridin' for me
