## **Just Give Me A Ring**

## **Clyde McPhatter**

When love has come and gone And you feel so all alone Don't worry 'bout a thing Just give me a ring

If the flu ever gets you down
And you can't find a friend around
Don't worry 'bout a thing
Just give me a ring

It's just sad and lonely
Thinking love was only a dream
Well, you just got a case of a broken heart
Things are not as bad as they seem

Oh, when your world falls apart
And you're left with a broken heart
Don't worry 'bout a thing
Just give me a ring

When you're sad and lonely
Thinking love was only a dream
Well, you just got a case of a broken heart
Things are not as bad as they seem

Whoa, when your world falls apart And you're left with a broken heart Don't worry 'bout a thing Just give me a ring

Don't worry 'bout a thing Just give me a ring Don't worry 'bout a thing...
