

## Just To Hold My Hand

Clyde McPhatter

I want to know do you love me?  
Tell me do you care?  
Will you let me hold you baby?  
Take you anywhere?  
Tell me, will you let me be, let me be your friend?  
Will you let me hold you?  
Until then, yeah, don't you know baby  
That the truth is the lie?  
Ask yourself, dear, if you're doing me right  
Cause I want to love you  
Oh but not just to let you sit, sit and hold my hand  
Baby, just hold my hand  
Now I want to love you, oh but not just to let you sit  
Sit and hold my hand, baby just hold my hand

When I first met you, we took a long long walk  
While we were walkin baby, we had a long long talk  
I told you how I wanted you, and all the things I'd do  
If you'd only prove that you loved me too  
Yeah, I want to tell you how it thrills, a how it thrills me  
To call your name  
If we don't make it, you've got yourself to blame  
Cause I'm gonna love you, oh but not just to let you sit  
Sit and hold my hand  
Sit and hold my hand  
Sit and hold my hand....
