

# Can't Make Up My Mind

CMAT

My "gone fishing" alibi  
You won't see me 'til Wednesday  
But I'm fine  
No, really, I'm fine  
Like a teenage Frankenstein  
My head's a mess but from the neck down  
I'm fine  
I'm actually fine

You say I'm too dependent, what did you expect  
An independent lady with a plethora of friends?  
You found me in the gutter, the best that you could find  
Excuse me if I'm difficult, I can't make up my mind

I'm your hunky dory, I miss you all the time  
I'm busy and I can't make up my mind  
And I've the constitution of lemon and lime  
I'm fizzy and I can't make up my mind

Ooh, yeah-yeah, woo

Step right up and see the girls  
The penny arcade's calling me  
I'm cool  
No, really, I'm cool  
I get distracted, you pissed off  
Funny, 'cause thought that you  
Were cool  
Are ya really that cool?

I'm a lighthouse keeper, I break the bulb for fun  
I never see the pain I cause, I've never seen the sun  
But you love the attention that I give to you  
I'm sorry, you're responsible that I can't make up my mind

I'm your hunky dory, I miss you all the time  
I'm busy and I can't make up my mind  
And I've the constitution of lemon and lime  
I'm fizzy and I can't make up my-

I want you  
I think I do  
It's hard to know  
My mind just goes  
Off on my phone  
See what comes next  
Push the middle button, keep it coming  
I'll be forty-seven with no luck

I'm your hunky dory, I miss you all the time  
I'm busy and I can't make up my mind  
And I've the constitution of lemon and lime  
I'm fizzy and I can't make up my mind

Overboard and swimming, throw this klutz a line  
I'm dizzy and I can't make up my mind  
And I'm the queen of England drinking baby's wine

I'm Lizzy and I can't make up my  
Can't make up my  
Can't make up my  
Can't make up my mind, yeah
