

Iceberg

CMAT

Cheap Cabernet kissing your teeth like a bad lip stain
Like the freebie shit inside teen girl magazines
Remember sending our pictures in, hoping they'd print them out?
They wouldn't show our faces, much like you right now

Where'd you go, crazy girl boss?
Where'd you go, are you still lost?

Nice words, good times
Iceberg tonight
I see it hurts
Icy iceberg
You cry
I've heard
Through walls
Iceberg
I see it hurts
Icy iceberg

I really think Rose could've made room on that floating door
And you just agree
I swear that you wouldn't have before
You used to wanna pick fights and scream about any old thing
And now you're drowning just like Jack did

Where'd you go, is it too much?
Oh, the world has us both crushed

Nice words, good times
Iceberg tonight
I see it hurts
Icy iceberg
You cry
I've heard
Through walls
Iceberg
I see it hurts
Icy iceberg

Hey girl, it's fine
Just break, just cry
I'm here tonight
Iceberg delight
I'm built like a boat
I'll fuck that shit up
I see you hurt
Icy iceberg
