

## Uncomfortable Christmas

CMAT

A mad old time, one big racket  
I hate the smell of your winter jacket  
I hate to think how long you've had it now

A dying fire was not long roaring  
Technically it's no Christmas morning  
But I won't leave till the drinks stop pouring out

I could feel you moving from the back of my...  
The one thing I don't want is a holiday fight  
Everybody laughs but it leaves us in the wreckage  
Oh and I didn't wanna sit next to you  
I hate this season of uncomfortable truths  
And trees that lie like the way your eyes used to

When you looked at me  
When you looked at me

No surprise  
That's why I suit myself  
That's why there's no big present on the kitchen shelf  
Just a trail of white from the fire to the roof

Is it a new year when the sleigh bells ring?  
Did this turkey die for my sins?  
Is it okay to be nervous all of the time?  
Oh and I didn't wanna sit next to you  
I hate this town, that's why I had to move  
And trees that lie like the way your eyes used to

When you looked at me (Uncomfortable Christmas)  
When you looked at me (Uncomfortable Christmas)  
When you looked at me (Uncomfortable Christmas)  
When you looked at me
