CNBLUE

I love you everyday
Can you remember the day we met?
Baby, you came and walk with me. Don't walk away
You are my number one, number one
You tell me everything
And I will listen I promise baby
Baby, you come and hold my hand
Baby, can we dance?
Don't you love me now? Fall in love with me

You're my only angel
You're my only angel
Ms pretty, be my Mrs.
I will make you mine. Girl, be easy
You know you are driving me freaking crazy
You're my only angel
