

Daisy, if I close my eyes and count to ten  
It feels like you'll be here, your smell tickles my nose  
Daisy, if I close my eyes and count to ten  
Suddenly I can feel her lips, her sweet lips, oh baby

Where are you gone, why you leave me alone?  
Our memories, don't you remember babe, oh my love  
Where are you gone, why you leave me alone?  
I have to find you, you know I need you

I can't get you out of my mind, we could have had it all  
Look at me, why don't you love me do, wanna go back to you  
Far beyond the sun, the sun always shines  
Far beyond the sun, the sun always shines

Daisy, if I close my eyes and count to ten  
It feels like you'll be here, your scent lingers in the air  
Daisy, if I close my eyes and count to ten  
I can feel her lips, settle down on mine, like a butterfly

Where are you gone, why you leave me alone?  
Our memories, don't you remember babe, oh my love  
Where are you gone, why you leave me alone?  
I have to find you, you know I need you

I can't get you out of my mind, we could have had it all  
Look at me, why don't you love me do, wanna go back to you  
Far beyond the sun, the sun always shines  
Far beyond the sun, the sun always shines

I can't get you out of my mind, we could have had it all  
Look at me, why don't you love me do, wanna go back to you  
Far beyond the sun, the sun always shines  
Far beyond the sun, the sun always shines
