

## Face To Face

CNBLUE

Tick tock when I see you  
Baby, let me tell you something  
Can I tell you when I see you face to face  
(I wanna be your baby, I'm gonna be your man)  
Tick tock after today is gone  
Baby you'll be my girl  
Can I tell you when I see you face to face  
(I wanna be your baby, I'm gonna be your man)

I don't want you to leave, will you hold me tight□  
I would spend every time with you  
I don't want you to leave, will you take my hands□  
You're the one I wanna go through time with. Girl  
Ain't nobody better. Oh my love  
You'll be right by my side forever  
We belong together all night long  
You're the one I wanna go through time with. Girl  
(I wanna be your baby, I'm gonna be your man)

Who's gonna take your place  
Nobody loves me like you  
Can I tell you when I see you face to face  
(I wanna be your baby, I'm gonna be your man)  
Where there is love, I'll be there  
Baby, just call my name  
Can I tell you when I see you face to face  
(I wanna be your baby, I'm gonna be your man)

I don't want you to leave, will you hold me tight□  
I would spend every time with you  
I don't want you to leave, will you take my hands□  
You're the one I wanna go through time with. Girl  
Ain't nobody better. Oh my love  
You'll be right by my side forever  
We belong together all night long
