

Holiday

CNBLUE

Every day every night
Every day every night
Oh boy, you not bad
But you not rocking
Up in the sky
I should sing like them birds
Don't need to try to entertain
Oh boy, you not bad
But you gotta dance
You don't know
What is right and what is wrong
Don't try to even entertain

I make 'em bounce
I just make you be feeling fine
Working hard and playing hard
Every day is a holiday
Bounce
I just make you be feeling right
Working hard and playing hard
Every day is a holiday

Every day every night party tonight
Every day every night party tonight
Every day every night party tonight
Every day every night party tonight

I make 'em bounce
I just make you be feeling fine
Working hard and playing hard
Every day is a holiday
Bounce
I just make you be feeling right
Working hard and playing hard
Every day is a holiday
Bounce
I just make you be feeling fine
Working hard and playing hard
Every day is a holiday
Bounce
I just make you be feeling right
Working hard and playing hard
Every day is a holiday
