When I look at you my face gets red

When I see you my heart goes thump thump

I talk with shyness like a kid

When I look at you I just smile out of nowhere

Like a fool I keep doing that

I think love came to me

You're the president of my heart

You're my chests' star embroider

I'm Genie for you girl

You make me stop breathing

Whatever you want

Because I love you

There's no reason for my love you know

You're a darling

You're more beautiful than the stars above in the night sky
The shining thing deep inside my heart
My own love light

I love you darling
Give me light next to me whenever
Every night I look at you
And you're beautiful even when I look at you
You're my love light

When I see you I feel like I'm up on the clouds
It may be immature but I keep doing this
I think love came to me

You're a darling
You're more beautiful than the stars above in the night sky
The shining thing deep inside my heart
My very own love light

I love you darling
Give me light next to me whenever
Every night I look at you
And you're beautiful even when I look at you
You're my love light

You're lovely
You're more blinding than the sunlight up in that sky
You shine the dark places inside my heart
My own love light

I love you lovely
Even if I close my eyes I see you
Looking at you like this
You're still blinding even when I see you
You're my love light
