Woo no no no no

Have strength today, you're doing a good job
I hope you'll smile as you listen to this song
I couldn't tell you in words
But my heart is going to you

Sometimes, when you're feeling down, lean on me
I'm just a friend to you but
Do you know?
To me, you're already my girl

My love, stop and turn around
You might get surprised
But it was hard for me
I saw you smile and cry
But I couldn't tell you
As if I was your manito

If you want me to protect you from far away
I'll do that, but know this
The smiling you, the crying you
The person who loves you the most is me
Please know

Have strength today, you're doing a good job
Please eat a big breakfast
It'll get colder at night
So dress in layers

You're pretty even when you're tired
So don't worry and tell me everything
Even if tonight passes
I'll be with you

My love, stop and turn around
You might get surprised
But it was hard for me
I saw you smile and cry
But I couldn't tell you
As if I was your manito

If you want me to protect you from far away
I'll do that, but know this
The smiling you, the crying you
The person who loves you the most is me
Please know
Woo yeah
Oh baby, stay with me woo

I love you, I love you
Every day, like this
Tell me love you oh baby
I look at you all the time
And now I can't hold it in

All the lonely days
You melt away with your eyes
I will go to you and softly kiss you

The smiling you, the crying you
The person who will always protect you is me
Please know
Woo no no no no
