

## Monster

CNBLUE

I'll take you to the monster (Monster, monster)  
If you don't stay with me anymore  
I'll take you to the monster, all right? (Monster, monster)  
Don't be afraid of the pain  
I'll take you to the monster (Monster, monster)  
If you speak ill of me, oh-oh, oh-oh  
I'll take you to the monster, all right? (Monster, monster)  
Don't be afraid of the pain

Came into my life, know you make me such a fool  
Get out, get out tonight, don't let me irritated  
Came into my life, twist it as you like to do  
Never, never tonight, I'm gonna make you be hurt  
You, you, you, you're so bad girl  
Look at me, look at me, girl

I'll take you to the rock star (Rock star)  
He's waiting for you, girl, oh-oh, there  
I'll take you to the rock star, don't cry (Rock star)  
Girl, before you get hurt

Came into my life, know you make me such a fool  
Get out, get out tonight, don't let me irritated  
Came into my life, twist it as you like to do  
Never, never tonight, I'm gonna make you be hurt  
You, you, you, you're so bad girl  
Look at me, look at me, girl

I'll take you to the rock star  
Don't cry, 'til I could get you hurt

Came into my life, know you make me such a fool  
Get out, get out tonight, don't let me irritated  
Came into my life, twist it as you like to do  
Never, never tonight, I'm gonna make you be hurt  
You, you, you, you're so bad girl  
Look at me, look at me, girl  
You, you, you, you're so bad girl  
Look at me, it's over
