

Try Again, Smile Again

CNBLUE

Yo, I never lose myself everyday
I can get pressures at times
I'm gotta try again and back again
I tried it all night, let's go

More bigger halls and albums
Don't lose my first intention
I never lose myself everyday
More bigger homes and bling-blings
We got more concentration
I never lose myself everyday

I can get pressures at times
But I am strong and I try to sing all night
I don't like same songs and I don't like same sounds
I just love to try all night

I am gonna try again, try again
Back again, try it all night
I never give up forever
Try again, try again
Back again, time to try
I want to try to show all night

Uh, I just like it
The stage and albums

More bigger cars and concerts
Don't lose first, big passion
I never lose myself everyday
More bigger world and listeners
We do more gig in many nations
I never lose myself everyday

I can get pressures at times
But I am strong and I try to sing all night
I don't like same songs and I don't like same sounds
I just love to try all night

I'm gonna try again, try again
Back again, try it all night
I never give up forever
Try again, try again
Back again, time to try
I want to try to show all night

Try it all night, all night

I'm gonna smile again, smile again
Back again, smile all night
I'll never cry, forever
Smile again, smile again
Back again, time to smile
I want to try to smile all night
Try again, try again
Back again, try it all night
I'll never give up forever

Try again, try again
Back again, time to try
I want try to show all night
