

Where Have you been? I've been here.
Waiting anticipating, coping with tears.
Where have you been?
You've been untrue, I've seen it before and I see it again.
Its quite clear now
Your phone rang all night.
I wanted here.
Waiting anticipating, coping with fear.
Where have you been?
You've been untrue.
I've seen it before and I see it again
You can't stop me you know who I am.
This justifies now just what I am.
You crucify me won't lay by my side.
And now you'll need me until I die.
Guess what I'm dead
You've been untrue.
I've seen it before and I see it again
You can't stop me you know who I am.
This justifies now just what I am.
You crucify me won't lay by my side.
And now you'll need me until I die.
Guess what I'm dead
