

It seems the more I know
The less I know
Makes me uncomfortable
Wondering if it's all for show
Am I just an animal
Diggin' into rabbit holes?
I'm falling on my knees
Fall in love endlessly
And break up easily
Repeating my history
Am I just an animal
Diggin' into rabbit holes again?

What I thought I knew
I can't seem to find
What I think I need
I'm wrong every time

I'm on the floor again
Woke up with aspirin
My lucky talisman
Bring me back to life again
Don't wanna be a vegetable
I keep it unpredictable
It's up to me to write
The story of my life
Even if it's all a lie
We still got an alibi
We're just a bunch of animals
Diggin' into rabbit holes again

What I thought I knew
I can't seem to find
What I think I need
I'm wrong every time

Give it up
Give it up
I was born an animal
I'll be an animal 'til I die
Give it up
Give it up
I was born an animal
I'll be an animal 'til I die

I want some chocolate
Don't want a tootsie roll
They're robotic
And I'm an animal

What I thought I knew
I can't seem to find
What I think I need
I'm wrong every time
