

# Hold Me Down

Coast Modern

Runnin' in circles  
Feel like a square  
I'm nervous, I'm unprepared  
But on the surface  
I don't look scared at all  
I'm wrecked but I'm ready to tangle  
Try seein' it from my angle  
I'm a monster  
You're an angel  
I'll stick around if you run into danger  
I wanna thank you  
I'll never take you for granted  
Baby, you don't need to panic I'm here now  
I'm here so

Baby, hold me down  
When I can't get down  
Said, baby hold me down  
When I can't get down  
Here so, baby, hold me down

Face red but I'm green with envy  
Dark blue are the kisses she sent me  
Was a goner, she's so friendly  
I get so high like to space where you send me  
So let me down gently  
If you're just pretending  
'Cause I'm not pretending

Said, baby, hold me down  
When I can't get down  
Yeah  
Said, baby hold me down  
When I can't get down  
Here so, baby, hold me down

I've heard it all before  
I'm swimming in a lake  
I just wanna rub your back  
I just wanna eat some cake  
I don't need a lot to live  
I just wanna hang around  
If you've got some love to give  
Baby, you know where I can be found  
'Cause I could be your friend, babe, oh yeah  
We're spending all the time  
Together in the sunshine  
Forever in the breeze  
Climbin' trees and throwing rocks at stuff  
Oh yeah
