

First Love

Coasts

Placed down my arms are all over you
We missed out on a chance to settle the mood
Your strange eyes and the wrinkles around your brow
Crease up like you're trying to work it out

Rain falls and I've got holes in my favorite shoes
The luck's gone and there's nothing that we can do
To turn this into something special
Realized that we could do much better

First loves won't last
This time you took it too fast
One day you'll see
I was setting you free

Gettin' drunk always taking it out of me
Blue eyes are making this bittersweet
I've lost time tryna make it fit together
Realized that we could do much better

First loves won't last
This time you took it too fast
One day you'll see
I was setting you free

I let you down so low
I let you down but I'll make you believe
I'll make you believe
I let you down so low
I let you down and now I'm letting you go

First loves won't last
This time you took it too fast
One day you'll see
I was setting you free
