

Paradise

Coasts

We come to life when we're side by side
I don't know where to begin
So close your eyes and see the fire run wild
I'll chase freckles on your skin

This is paradise
This is paradise

Give your imagination room to breathe
Don't waste a second awake
I'll play your favorite record on repeat
And as you whisper my name

This is paradise
This is paradise
This is paradise
This is paradise

We're of a generation lost and loved
We are the creatures at night

Live out our lives with the darkness above
Slowly running out of time

But this is paradise
This is paradise
This is paradise
This is paradise
When I look into your eyes
I'm in paradise
And I can't disguise
That I'm in paradise

We come to life when we're side by side
I don't know where to begin
So close your eyes and see the fire run wild
I'll chase freckles on your skin

This is paradise
This is paradise
