

# A Long Time Ago

Cobi

Sometimes rain  
Out my window  
Is just what I need  
To feel alright

I think I'm gonna  
Write you a letter  
Off the top of my mind  
And probably never send it to you

You see  
There's a lot of things  
I didn't say  
When I had the chance  
I just didn't ever feel  
The time was right  
But it never is  
So I'll just go ahead now  
And say what I need to say

Page after page  
Ain't gonna help me now  
But if it's all the same  
Let it come pouring out

The best part  
About you  
Is the worst part about you  
It's your winning personality

Yeah  
You were right on  
The money when  
You said that I  
Needed time  
To myself  
If nothing else  
To get some help  
So I'll just go ahead now  
Go on and help myself

Help myself

Like I should've done  
A long time ago  
Like I Should've done  
A long Time ago  
Like I should've done  
A long time ago
