

Don't Stop

Cobi

I get so lost
So lost inside myself sometimes
But you're no stranger to these back alleys of mine
You know where to look when I hide from the world
You build me up and make me new
You hold me close and then you tear me apart

Don't stop
I need you in my blood
Don't stop
I need you just because, just because
I hope that I pleased you
'Cause you know my body needs you
Don't stop
I praise you for your love
You know the ways of my heart

Life's a winding maze
No matter which way we go, yeah, yeah
And if I lead you to a dead end up the road
I know I can follow you back home
I know we both have been abused
Can only hope we find our way in the dark
As I reach out for you hand
I know we can, find a place that is ours

Don't stop
I need you in my blood
Don't stop
I need you just because, just because
I hope that I pleased you
'Cause you know my body needs you
Don't stop
I praise you for your love
You know the ways of my heart

Don't stop
'Cause we're running out of time
And I can't let go
Don't stop
I need you right now
Don't let go
Don't stop
'Cause we're running out of time
Say it ain't so
Don't stop
I need you right now
I need you right now
You know the ways of my heart
